

DENNER BISMARCK

Software Developer

Rio Grande do Norte, Brazil

+55 84 99697-3162 | dennerbismarck@gmail.com

GitHub: github.com/DennerBismarck | LinkedIn: linkedin.com/in/denner-bismarck

PROFESSIONAL SUMMARY

Software Developer focused on backend development using Python, Django and FastAPI, working on REST APIs, database modeling and scalable applications designed to solve real-world problems.

Experienced in web application development, API integrations, Docker and software architecture fundamentals, with strong interest in scalable backend systems and software engineering best practices.

TECHNICAL SKILLS

Backend

Python • Django • Django Rest Framework • FastAPI • Node.js • REST APIs

Frontend

React • JavaScript • TypeScript • HTML • CSS

Databases

PostgreSQL • MySQL • SQL • Redis

Architecture & DevOps

Docker • CI/CD • Clean Architecture • DDD Fundamentals • Git • GitHub

Security

Web Application Security • Pentesting Fundamentals

PROFESSIONAL EXPERIENCE

Tech Lead & Full Stack Developer | Freela Serviços

2026 – Present | Remote

- Development of web and mobile platform features using React, React Native, Next.js and Node.js
- API integrations and implementation of business rules
- Technical leadership, code reviews and architecture decisions
- UX/UI improvements and responsive application adjustments

Backend Developer & Software Engineer | REPARA+

Aug 2025 – Jan 2026

- Backend API development using Django
- System architecture planning and modeling
- Development of CNN models for image processing

Full Stack Developer | TBL Project – UFRN

May 2025 – Jul 2025

- Backend API development with Python
- Development of PWA platform using HTML, CSS and JavaScript
- Security improvements and deployment integration

Backend Developer | BaoBah – LABENS/UFRN

Aug 2024 – Feb 2025

- API optimization and refactoring
- Business logic improvements
- Security enhancements for web applications

Backend Developer | Byte Seridó Jr

Mar 2023 – Dec 2023

- Development of systems using Django Rest Framework and Node.js
- Team collaboration using SCRUM methodology
- Code versioning with Git and GitHub

RELEVANT PROJECTS

Freela Serviços Platform

- Development of freelancer platform features for web and mobile
- API integrations, payment flows and business rules implementation

TBL Educational Platform

- Development of educational platform using Python and PWA architecture
- API creation and frontend integration

CNN Image Processing Model

- Development and training of convolutional neural networks for image processing

EDUCATION

- **Bachelor's Degree in Information Systems**

Federal University of Rio Grande do Norte (UFRN) — 2023 – Present

- **Technical Degree in Information Technology**

Federal Institute of Rio Grande do Norte (IFRN) — 2019 – 2023

LANGUAGES

- Portuguese — Native
- English — Advanced
